

# HUMMINGBIRDS

*By Sofie Kobelkova*

# HUMMINGBIRD RECIPE PART 1

You need  $\frac{1}{4}$  of a cup of sugar and 1 cup of water. Make sure the sugar you use is white not brown.

## HUMMINGBIRDS RECIPE PART 2

Next pour the sugar  
into the water. Then stir  
until it is smooth

# STEP 3

Next pour the sugar water into the hummingbird feeder.

## STEP 4

Next add water to the top. This way ants don't get in.

# STEP 5

Lastly hang the feeder outside.

# HUMMING BIRDS

Soon  
hummingbirds will  
come to the feeder.

I think this is a Rufous  
hummingbird.

## **The End**

What type of Hummingbird is this?
